

# *Products*

**goldrecycling.com**

In this brochure we show our standard range of products which we offer. We can of course provide more products upon request.

On all products is the price on request.

Delivery time varies from three to six weeks with a few exceptions.

You can of course submit your precious metal scrap to us and avail yourself to a metal account. After refining (takes about three weeks) you will get grams credited to your metal account. When you order next time, you can count of the programs on your new order and therefore pay less. When using metal account counted grams against gram. You will pay only for exceeding grams precious metal and manufacturing cost and freight. Of course you can also sell the metal on your weight account to daily price and get your credit balance paid in cash.

For more information or to place an order please contact us;

## CRUCIBLES

**made of platinum/iridium 97/3, platinum/gold 95/5 or FKS-platinum/gold 95/5**

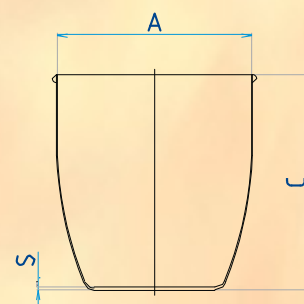

| Inner Ø | Height | Base thickness | Capacity | Weight | Code |
|---------|--------|----------------|----------|--------|------|
| mm      | mm     | mm             | ml       | g      |      |
| A       | C      | S              |          |        |      |
| 20      | 23     | 0,19           | 5        | 3,7    | 20   |
| 23      | 26     | 0,17           | 7        | 5,2    | 21   |
| 26      | 30     | 0,20           | 10       | 7,7    | 22   |
| 28      | 32     | 0,29           | 15       | 12     | 23   |
| 30      | 35     | 0,36           | 20       | 17     | 24   |
| 35      | 37     | 0,36           | 25       | 21     | 25   |
| 35      | 40     | 0,36           | 30       | 25     | 26   |
| 40      | 45     | 0,36           | 40       | 30     | 27   |
| 45      | 50     | 0,36           | 50       | 38     | 28   |
| 50      | 55     | 0,40           | 75       | 52     | 29   |
| 55      | 60     | 0,40           | 100      | 65     | 30   |

### Crucible with reinforced rim

**made of platinum/iridium 97/3, platinum/gold 95/5 or FKS-platinum/gold 95/5**

| Inner Ø | Height | Base thickness | Capacity | Weight | Code |
|---------|--------|----------------|----------|--------|------|
| mm      | mm     | mm             | ml       | g      |      |
| A       | C      | S              |          |        |      |
| 20      | 23     | 0,19           | 5        | 4,5    | 20V  |
| 23      | 26     | 0,17           | 7        | 6      | 21V  |
| 26      | 30     | 0,20           | 10       | 9      | 22V  |
| 28      | 32     | 0,29           | 15       | 14     | 23V  |
| 30      | 35     | 0,36           | 20       | 19     | 24V  |
| 35      | 37     | 0,36           | 25       | 23     | 25V  |
| 35      | 40     | 0,36           | 30       | 27     | 26V  |
| 40      | 45     | 0,36           | 40       | 33     | 27V  |
| 45      | 50     | 0,36           | 50       | 41     | 28V  |
| 50      | 55     | 0,40           | 75       | 55     | 29V  |
| 55      | 60     | 0,40           | 100      | 69     | 30V  |

LIDS – fit crucibles and dishes both with and without reinforced rims

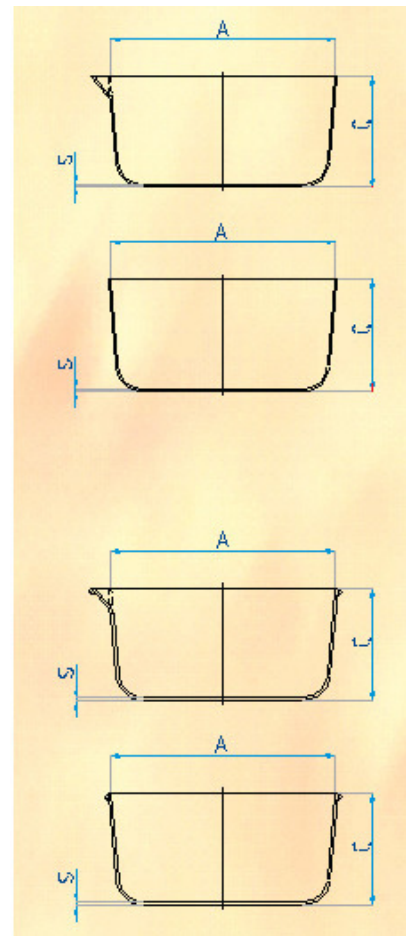

**made of platinum/iridium 97/3, platinum/gold 95/5 or FKS-platinum/gold 95/5**

| Inner Ø | Height | Material thickness | Weight | code |
|---------|--------|--------------------|--------|------|

| 85      | 20     | 0,14           | 75       | 22,0   | 65   |

### CRUCIBLE TONGS MADE OF CHROMIUM-NICKEL STEEL

Shoes or tips made of platinum/iridium 97/3, platinum/gold 95/5 or pure platinum

| Overall length<br>mm<br>A | approx. weight<br>per pair<br>g | Design             | code  |
|---------------------------|---------------------------------|--------------------|-------|
| 200                       | 4-5                             | with Pt shoes      | S 200 |
| 250                       | 4-5                             | with Pt shoes      | S 250 |
| 300                       | 4-5                             | with Pt shoes      | S 300 |
| 400                       | 7-8                             | with Pt shoes      | S 400 |
| 500                       | 7-8                             | with Pt shoes      | S 500 |
| 600                       | 9-10                            | with Pt shoes      | S 600 |
| 200                       | 10-12                           | with solid Pt tips | M 200 |
| 250                       | 10-12                           | with solid Pt tips | M 250 |
| 300                       | 10-12                           | with solid Pt tips | M 300 |
| 400                       | 24-25                           | with solid Pt tips | M 400 |
| 500                       | 30-35                           | with solid Pt tips | M 500 |
| 600                       | 30-35                           | with solid Pt tips | M 600 |

### TWEEZERS MADE OF CHROMIUM NICKEL STEEL

Shoes or tips made of platinum/iridium 97/3, platinum/gold 95/5 or pure platinum

| Overall length<br>mm<br>A | approx. weight<br>per pair<br>g | Design             | code  |
|---------------------------|---------------------------------|--------------------|-------|
| 145                       | 2                               | with Pt shoes      | S 145 |
| 145                       | 4                               | with solid Pt tips | M 145 |

### SPATULAS

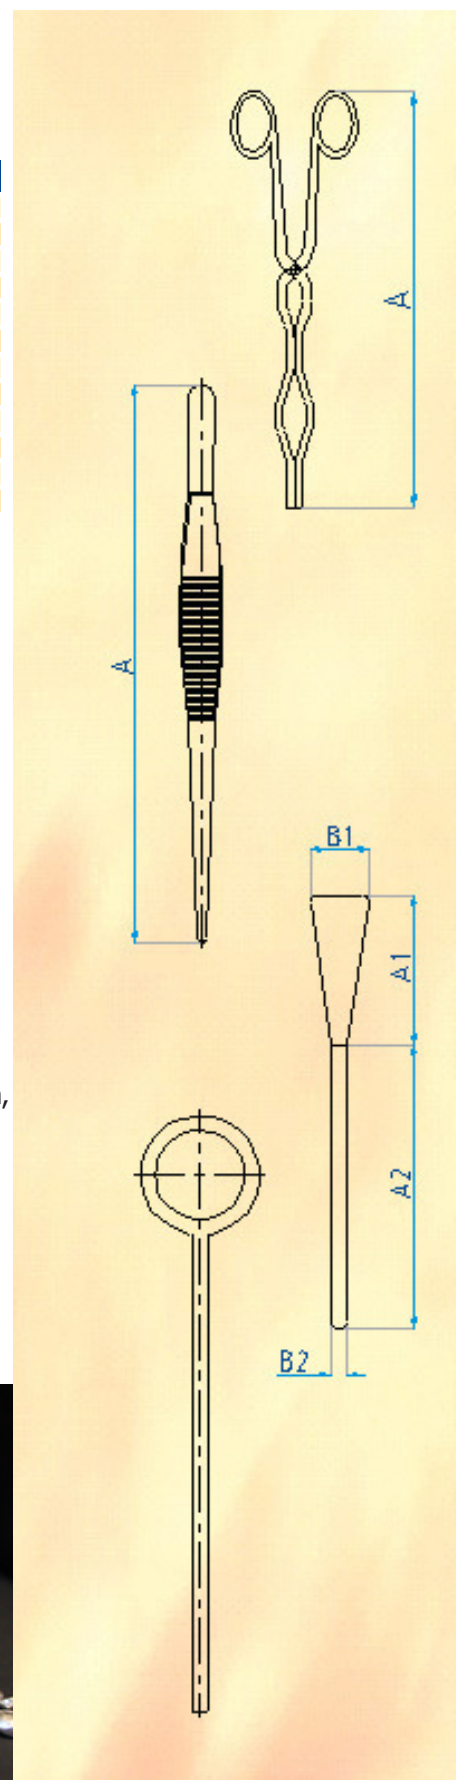

For reasons related to stability spatulas are fabricated from the alloy platinum/iridium 90/10 and are available in a variety of lengths and shapes.

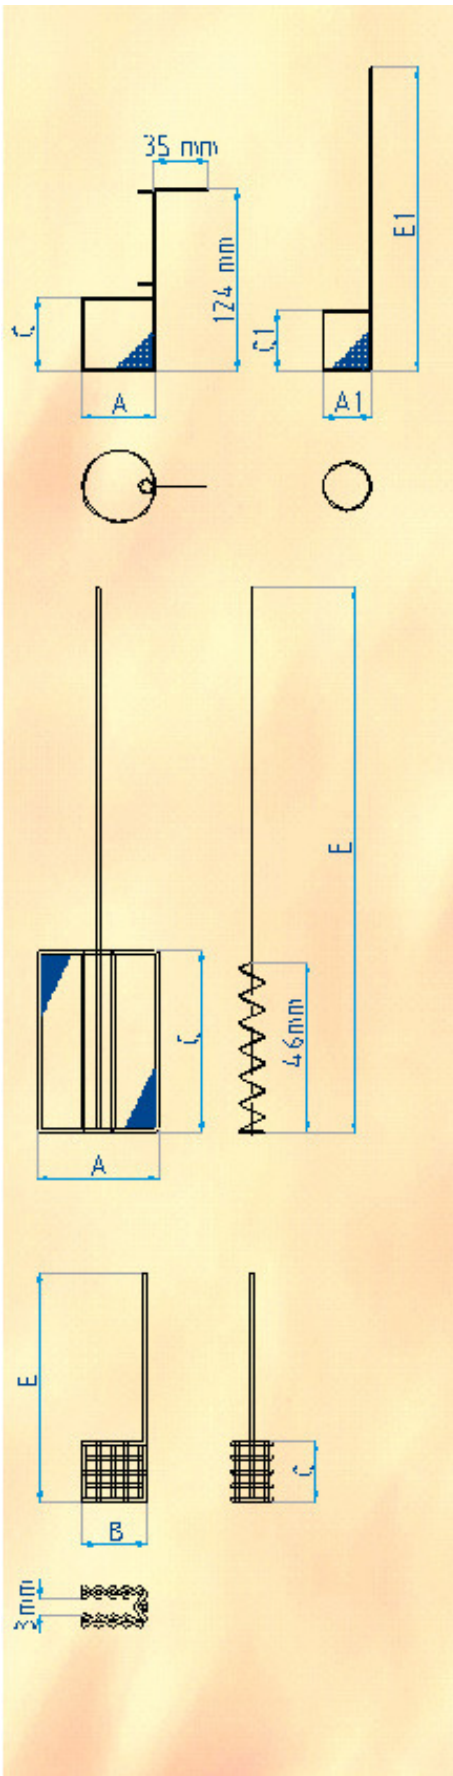

Please let us know dimensions you need for your applications.

**Legend** to the spatula drawing: **A1** spatula length, **A2** handle length, **B1** spatula width, **B2** handle width

### INOCULATION LOOPS

Eyelets made of platinum/iridium 90/10 for microbiology and medical applications are available in various diameters and lengths. Please let us know the dimensions you need.

### FISCHER ELECTRODE

made of platinum/iridium 90/10
